

ALAN THOMAS

Project Manager

Mr. Thomas has over 16 years of experience in construction materials inspection and testing. Mr. Thomas works closely with clients, designers, project managers, as well as program managers to insure the quality of construction materials testing services provide by AGG's technical staff on projects throughout the Dallas Fort Worth metroplex. Mr. Thomas has managed QA/QC Programs for the previous 8 years and has been involved in continuing education for employees that include training and preparing for certification for newly hired employees. Mr. Thomas has also managed many of the projects listed below that were completed on or under budget. Mr. Thomas has managed a staff of field technicians as well as overseer of all laboratory activities which included test results validation as well as report oversight. Mr. Thomas has extensive experience in mass grading testing and inspection, civil inspection, pier inspection, lime & cement stabilization, concrete mix designs, concrete & masonry testing and inspection, reinforcing steel inspection, post tension inspection, fire proofing testing, reinforcing pull test, nuclear density testing of soils and soil aggregates, and laboratory testing procedures. Mr. Thomas currently serves as the Vice-President for the Northeast Texas Chapter of the ACI as well as the board chairman on the house committee.
